

MAHAMMAD SARFRAZ

Data Analyst | SQL | Power BI | Python | Dashboards & Reporting

Dubai, UAE | +971 56 121 1099 | mahammadsarfraz575@gmail.com

Portfolio: mahammadsarfraz575.github.io/mahammad-sarfraz.profile | LinkedIn | GitHub

UAE resident | UAE driving licence | Available for immediate start

PROFESSIONAL SUMMARY

Data Analyst with 2+ years of experience in Dubai, managing data, reporting and analytics for a school of 4,000+ students across two curricula and multiple systems (SIMS, Nova-T, PowerSchool, ASC) and external assessment platforms (GL Assessment, MAP, Testwise — CAT4, NGRT). Skilled in SQL, Power BI and Python, with daily hands-on experience cleaning, validating and reconciling data from multiple sources into accurate, leadership-ready dashboards. Also built and deployed a Random Forest machine learning model predicting student outcomes. MCA in Data Science (A+). Looking for a Data Analyst, BI Analyst or Junior Data Scientist role.

CORE SKILLS

SQL & Databases: SQL, MySQL, PostgreSQL, Snowflake, Data Cleaning, Validation, Cross-system Reconciliation

BI & Reporting: Power BI, DAX, Tableau, Advanced Excel, Dashboard Design, Daily/Recurring & Ad-hoc Reporting

Python & ML: Python, pandas, NumPy, scikit-learn, Random Forest, Feature Engineering, Streamlit, Jupyter

Analytics: Trend & Cohort Analysis, Statistical Analysis, EDA, A/B Testing, Attendance/Enrolment/Assessment Analysis

Platforms & Systems: SIMS, Nova-T, PowerSchool, ASC, GL Assessment, MAP, Testwise, Microsoft Fabric, Azure ML, Git/GitHub

PROFESSIONAL EXPERIENCE

Data Analyst

Oct 2024 – Present

School of Research Science, Dubai, UAE

- Manage academic data across two curricula and four core systems — SIMS and Nova-T (UK), PowerSchool and ASC (US) — covering registration, attendance, assessment and timetabling for 4,000+ students.
- Collect and reconcile external assessment data (GL Assessment, MAP, Testwise — CAT4, NGRT) alongside internal teacher-entered assessments into one consistent picture.
- Build and maintain Power BI and Excel dashboards for attendance, enrolment, subject performance and academic progress, used daily by leadership and teachers.
- Automated data extraction and reporting workflows, cutting manual reporting time by 65% and enabling same-day turnaround.
- Validate and clean data across all systems to keep academic and regulatory reporting accurate ahead of start-of-year and end-of-year promotion decisions.
- Present analysis and recommendations to school leadership and department heads in clear, actionable terms.

Web Developer & Data Support Analyst

Oct 2023 – Aug 2024

Global Electro Lighting, Dubai, UAE (Hybrid)

- Analysed web traffic and server logs to find performance bottlenecks; fixes improved load times and session retention.
- Managed MySQL databases for product inventory and customer records, ensuring data security and continuity.
- Built and optimised the company website (HTML, CSS, JavaScript, PHP) and trained staff on CMS and data entry standards.

DATA PROJECTS (Portfolio: mahammadsarfraz575.github.io/mahammad-sarfraz.profile)

Student Dropout Prediction (Machine Learning)

Live app / code

Python, pandas, scikit-learn, Random Forest, Streamlit

- Built and deployed an end-to-end model classifying student outcomes (pass / withdraw / fail) on a 32,000+ student dataset (Open University Learning Analytics Dataset).
- Engineered features from demographics, online activity, submissions and scores across multiple joined tables; handled missing values and class imbalance.

SIMS Data Pipeline & Analytics App

Live app / code

Python, Streamlit, pandas, ETL, SQL

- Built a live pipeline that extracts institutional data and produces statistical analysis, removing manual exports.
- Designed dashboards with cohort breakdowns, trends and intervention signals for non-technical school leaders.

UAE Air Quality Intelligence App

Live app / code

Python, Streamlit, REST API, pandas

- Built a real-time dashboard on live API data (AQI, PM2.5, PM10, NO2) with trend charts and health alerts.

Teacher Timetable System

Live on GitHub Pages

JavaScript

- Built a scheduling tool integrating timetable data across platforms.

Additional: E-commerce & Warehouse Management System (Django, MySQL); 3 client websites (WordPress, PHP, SEO).

EDUCATION

MCA – Data Science (A+) | Presidency College, Bengaluru

2021 – 2023

BCA – Computer Applications (A+) | St Philomena College, Puttur

2018 – 2021

CERTIFICATIONS & LANGUAGES

- Microsoft Learn (2026): Power BI, Data Science in Microsoft Fabric, Azure ML Workspace
- Simplilearn (2024): Data Science with Python; SQL for Data Analysis. Udemy (2025): Master Microsoft Excel
- Languages: English (Professional), Hindi (Professional), Kannada (Native), Malayalam (Native)
